

American Legion Travis Post 76 history collection

Travis Post 76 would like to preserve the history and memories of our current veterans by creating a book documenting the stories of those who served in different war eras.

We will begin this year by interviewing those who served in WWII.

We have dedicated and talented writers who are excited about journaling these stories. The published stories will be a part of the American Legion Travis Post 76 history collection and will become of great value to incoming future young veterans.

Please contact Jason R. Denny to schedule an interview, 512-767-8644.
